Call for Proposals: Papers, Journals, Books, and Videos

The **International Journal of Innovative Teaching and Learning in Higher Education (IJITLHE)** provides perspectives on the theory, development, and application of innovations in teaching and learning. Authors share ideas, case studies, and original research on pilot projects, opportunities, emerging technologies, and other innovations in teaching and learning. Targeting educators, administrators, researchers, technologists, and specialists, IJITLHE creates the opportunity to share successes and failures when reimagining teaching and learning. The journal seeks quantitative and qualitative research papers, case studies, and reflections on experiences in teaching and learning in higher education.
